Fuori Salone 2014 - Milano

So stupendous, they have gone to the "Fuori Salone" (outside the Fair)
An event within the even this year as well, Domitalia presents its outdoor collection at Fuori Salone, a collection that had not been presented on the stand at the fair.
The most significant new Domitalia branded outdoor items could certainly not fail to be present at WT Smart City 2014, all associated with the prestigious WT Award and Smart City Award: awards dedicated to sustainable technological innovation and to the best architectural project. The setting is the beautiful Isimbardi Palace, and Domitalia's Phantom, Babà, Casper, Crown and Foryou inserted and adjusted themselves with the best urban and architectural projects in addition to sustainable innovations. For Domitalia it is normal being IN style even when it is OUT doors.
