Specifiche Premio | Accessibilità | Sostenibilità | Qualità della Vita

Nome Prodotto	**BoGo Light**
Progettista	Mark Bent
Azienda Produttrice	**SunNight Solar**
Campo di attivit	Developing world
Certificazioni	
Azienda distributrice	SunNight Solar
Indirizzo	1720 Bissonnet Houston, TX 77005, USA
Telefono	713-408-2485
Fax	713-522-2320
Indirizzo e-mail	markbent@sunnightsolar.com
e dell' innovazione	www.bogolight.com
Descrizione del prodotto	Rechargable, affordable solar light, using LEDs and NiCad batteries, polysilicone photovoltic panel, provided light for 2/3 year before battery replacement and 20 years for the componets. One third of the world's population lack a connection to an electrical grid, and many millions more have only intermittent access to electricity, thereby creating a reliance on illumination sources which are inefficient, outdated, expensive, often harmful to the user and damaging to the planet's environment. This lack of affordable lighting also negatively impacts on issues such as literacy, security, poverty, education, economic development and overall quality of life.
Materiali	ABS Plastic
Dimensioni	10 inches long, hand held, with grips, 13 oz
Tecnologia / Funzionamento	8/10 hours of sun – 6-8 hours of light
Benefici per l'ambiente	Less batteries in landfills, reduce global warming and CO2 emissions by replacing kerosene lanterns, reduce deforestation. Reduces the amount of kerosene presently being burned in lanterns.
Benefici per la persona	Enhances health, safety, education and overall quality of life. Enhances the security of women and children. Provides an opportunity for children to read at night and to extend school hours.
Altri prodotti che seguono criteri di innovazione accessibile e sostenibile per una migliore qualit della vita	SunNight Solar Enterprises was founded specifically to bring together a coalition of governments, private business, non-governmental organizations, religious groups and private citizens to improve and change the lives of billions of people.
