<p>Description of innovation social values</p> <ul style="list-style-type: none"> - product category - formal and functional features - problems solved by innovation - user - field of application 	<p>The MYWAY Compact is a portable personal electric vehicle. It is a vehicle designed to reduce the use of traditional private transportation in cities. MYWAY compact is a zero emission "last mile solution" for urban commute. It fits in a backpack / train / bus/ trunk of a private car, assembled in a few seconds, in order to efficiently transport the person to his destination.</p> <p>The use of MYWAY will encourage the use of public transport or remote parking in urban areas.</p> <p>See at: www.MyGreenMiles.com</p> <p>Field of application: Quality of life and Accessibility.</p>
<p>Description of technical features</p> <ul style="list-style-type: none"> - operations - technology 	<p>MYWAY Compact is based on high efficiency electric motor inside the wheel. Both wheels fold by a patented folding mechanism. Energy is stored by advanced rechargeable Li-Ion battery.</p> <p>See video animation on: http://www.youtube.com/user/Nimrodrs</p>
<p>Dimensions</p>	<ul style="list-style-type: none"> • Folded: 65 x 23 x 26 cm. • Open: 118 x 111 x 48 cm.
<p>Materials</p>	<p>Aluminum profiles 6061-T6 Alloy.</p>
<p>Certifications</p>	<p>TUV – in process.</p>
<p>Benefits for environment</p>	<p>Reduce CO2 emission by replacing carbon burning private cars in urban environment, by zero emission electric and efficient personal vehicles. Minimize city traffic conjunction by using public transport and efficient personal vehicle in order to connect to final destination.</p>
<p>Benefits for human being</p>	<p>Save time and money when moving short to medium distances. Only 0.2 cent per Km running cost, avoid traffic conjunctions.</p>
